

CLOGGED TOILET:

- Please let us know if you are aware of anything foreign being flushed down the toilet.

Try plunging first. See video linked below for instructions on how to properly use a plunger to unclog a toilet. <https://www.youtube.com/watch?v=5Ut7NGnZBdw>

Please note if this does not work, we will send a plumber, if the plumber finds any foreign objects not made for a toilet or drain, you will be billed for the plumbers invoice.
